

Description

This dedicated theater system delivers big picture and big sound to create a true cinema experience at home. It takes advantage of a large high-definition projection system to create stellar picture quality and elegantly hide the main speakers from view. A powerful 7.2 channel audio system packs incredible punch from your favorite sources, while custom furniture ensures that everyone has the best seat in the house.

Features

- Projector and large acoustically transparent screen
- Home theater seating with powered reclining
- Premium in-wall speakers and two triple 10" subwoofers
- HDMI Inputs for Satellite, BluRay, DVD, Streaming Player, and Game System
- Products safely tucked away inside equipment rack
- One-button operation using Pro Control touchscreen remote
